Hanukkah menorah lights

You will need

- Cardboard
- Orange and yellow card
- Scissors
- Pencil
- 9 jumbo lollipop sticks
- Double-sided sticky tape
- Wool (whites and blues)
- Glue stick

1

Stick a few pieces of double-sided tape along a lollipop stick.

2

Peel the film from the tape and place the end of any of the wools on the first piece of tape.

3

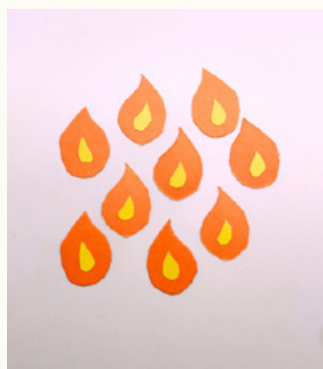

Wind the wool around the stick until it is partly covered and you cannot see the tape. Trim the excess wool.

4

Repeat with the remaining lollipop sticks using different white and blue wools.

5

Cut out nine flame shapes from the orange card and nine smaller flame shapes from the yellow.

6

Use the glue stick to glue one yellow flame to each orange flame and stick one to the top of each stick.

7

Cut a piece of card about 10cm wide by 4cm tall and two semi-circles about 4cm in diameter.

8

Place nine pieces of double-sided tape evenly along the top of the cardboard strip.

9

Peel the film from the tape and place one lollipop stick face down on each piece.

10

Cut a 2cm notch into the curve of each semi-circle.

11

Place the cardboard strip in the notches.
