

# Cystic Fibrosis our focus

Of the people that completed the travel insurance survey:

24%

paid £250 or over on travel insurance

28% of people reported that it took at least four hours or more to find appropriate insurance

9% of people that took part in the survey paid over £500!

63%

of those who travelled had an insurance policy that covered their CF

17%

travelled with no form of insurance at all

This breakdowns to:

6% had no insurance or E111

11% had no insurance, but had E111 documents

72%

of people with CF think that they are treated unfairly by insurance companies.

The top three most important aspects of travel insurance that would make the process better for people with cystic fibrosis were:

Affordability of policy (90%)

Appropriate CF cover (85%)

Peace of mind (34%)
